

EHS Tracker

Power By **Assertion IQ**

Platform for Environmental Management, Occupational Health, and Safety

MICROSOFT AZURE SOLUTION PROVIDER PROFILE: ASSERTION IQ

Assertion IQ develops solutions for highly regulated industries. EHS Tracker, a Microsoft Azure cloud solution, enables global management of compliance with environmental, health, and occupational safety requirements. EHS Tracker is a specialized web-based application that incorporates best practices from ISO-9001, ISO-14001, and ISO-45001 standards.

INTEGRATED MANAGEMENT SYSTEM

ISO-14001 EMS

A comprehensive Environmental Management System (EMS) module to manage all regulatory compliance data collection and analysis, automate threshold parameters, and track permits. Facilitate regulatory compliance at all times!

ISO-45001

A comprehensive Safety Management System (SMS) module for the daily application of best practices in worker health and safety management, incident management, risk identification, assessment, and mitigation, field inspections, and audits.

ISO-9001 QMS

Integration of best practices in quality management, such as tracking corrective and preventive actions; management of non-conformities and audit results. It also allows you to automatically track indicators, perform statistical analysis, and receive notifications of dates and events.

CLOUD SOLUTION

A web application available in the Microsoft Azure solutions catalog. Cloud platform, scalable, multi-language. Available in single-tenant or multi-tenant mode, including customization options and optimized for mobile devices.

CUSTOMER TESTIMONIAL

FIND OUT WHAT OUR CUSTOMERS SAY - THE CASE OF THE SERRALLÉS DISTILLERY

“Thanks to EHS Tracker, we have been able to organize many of our processes in the Compliance and Safety Department.”

– Héctor Guzmán, EHS Manager, Serrallés.

Learn more about our solution at www.assertioniq.com and request a demo, or send us your request to sales@assertioniq.com or contact us at +57-324-638-1492

Serrallés Distillery is a rum distillery located in Ponce, Puerto Rico, best known for its Don Q rum brand. The company earns more than \$400 million in revenue from rum sales to the United States.

FIND OUT WHAT OUR CUSTOMERS SAY

1. “It has been an excellent tool because, in this industry, security is a constantly changing field. Thanks to this platform, we have been able to organize many of our processes in the Compliance and Security Department.”
2. “We are 100% committed to the different processes we have in our plant. The integration with your platform has been excellent, and the commitment you have shown has been total.”
3. “They have been there with us every step of the way throughout the different processes, adapting to how our company works. That's the key, you know? It's not just about coming up with a package, but how you adapt to the client's needs, and in that regard, they have been 100%”
4. “I give it a 9 out of 10, very good, very good. Likewise, it is important to stay up to date on all regulations and processes in order to improve. This helps us to be more efficient and, ultimately, to meet your needs.”

“Héctor Guzmán, EHS Manager, Destilería Serrallés.”
